SOFTWARE DEVELOPER

Mobile Developer | Web Developer | Junior Software Developer

I have 1 year of programming experience in building mobile applications using Xamarin Forms. I am also familiar with SQL and React Native. I am competent in performing roles that include programming, testing, documentation, and deployment of Software applications. Bringing forth expertise in design, installation, testing and maintenance of applications.

WORK EXPERIENCE

Godrej InfoTech Ltd- Mumbai

07/2021 - 05/2022

Senior Executive

As a mobile developer, I was part of a team that developed and maintained scalable applications. I performed various duties including but not limited to the following:

- Carried out mobile development and implementation that assisted in developing internal mobile applications for the organization.
- Tested mobile applications, identified bugs, debugged, and resolved issues as reported by testing team.
- Documented applications developed according to system development standards and ensured that the accepted methodology was followed.
- Maintained source code of the developed system and followed best practices to collaborate with teammates.

OTTOEDGE Services - Mumbai

09/2022 - Present

Web Developer

As a junior web developer, my work included developing frontend design and well as managing backend of the website.

- Designed and developed user friendly and responsive website including user Login page.
- Finding inconsistencies and solving in the application.
